A quiet system at the edge of the usual routes.

Nothing truly interesting happened here very often.

Nasty Girls Alliance — community-driven public safety awareness program.

Connect me with Jam Tanto of WarDogs, looks like this is their neighborhood. We have some unplanned community work!

Outgoing call

Jam Tanto

WarDogs

Jam! Hi there! I'm technically on vacation, but it looks like I might need a little help.

I'm glad to hear from you too, even after all these years.

There's a suspect in system flying a Gila. And it looks loaded to the brim with cap batteries.

I need one ship with a Warp Disruptor and a few more with Energy Neutralizers. If the intel is right, that Gila can keep feeding cap for a long time... and I want to go back to sleep.

So a peaceful conversation is off the table. Got it, we're on it.

WARDOGS ALLIANCE

Well, that's one way to remind Highsec we still exist.

Anyone without problems with the Minmatar police — form up in 30 seconds. Energy Neutralizers take priority!

We travel under our own power!

Lala, we'll be there in 7 minutes. Be ready to lead us to the target.

No problem, we still have 10+ minutes.

Just enough time to finish my coffee.

8 minutes later

We're in position.

Set safety to yellow!

This is bad...
Warp off!
Get the shields up!

Got point.

Aggression from the suspect confirmed.

We can't break him, he's repping hard.

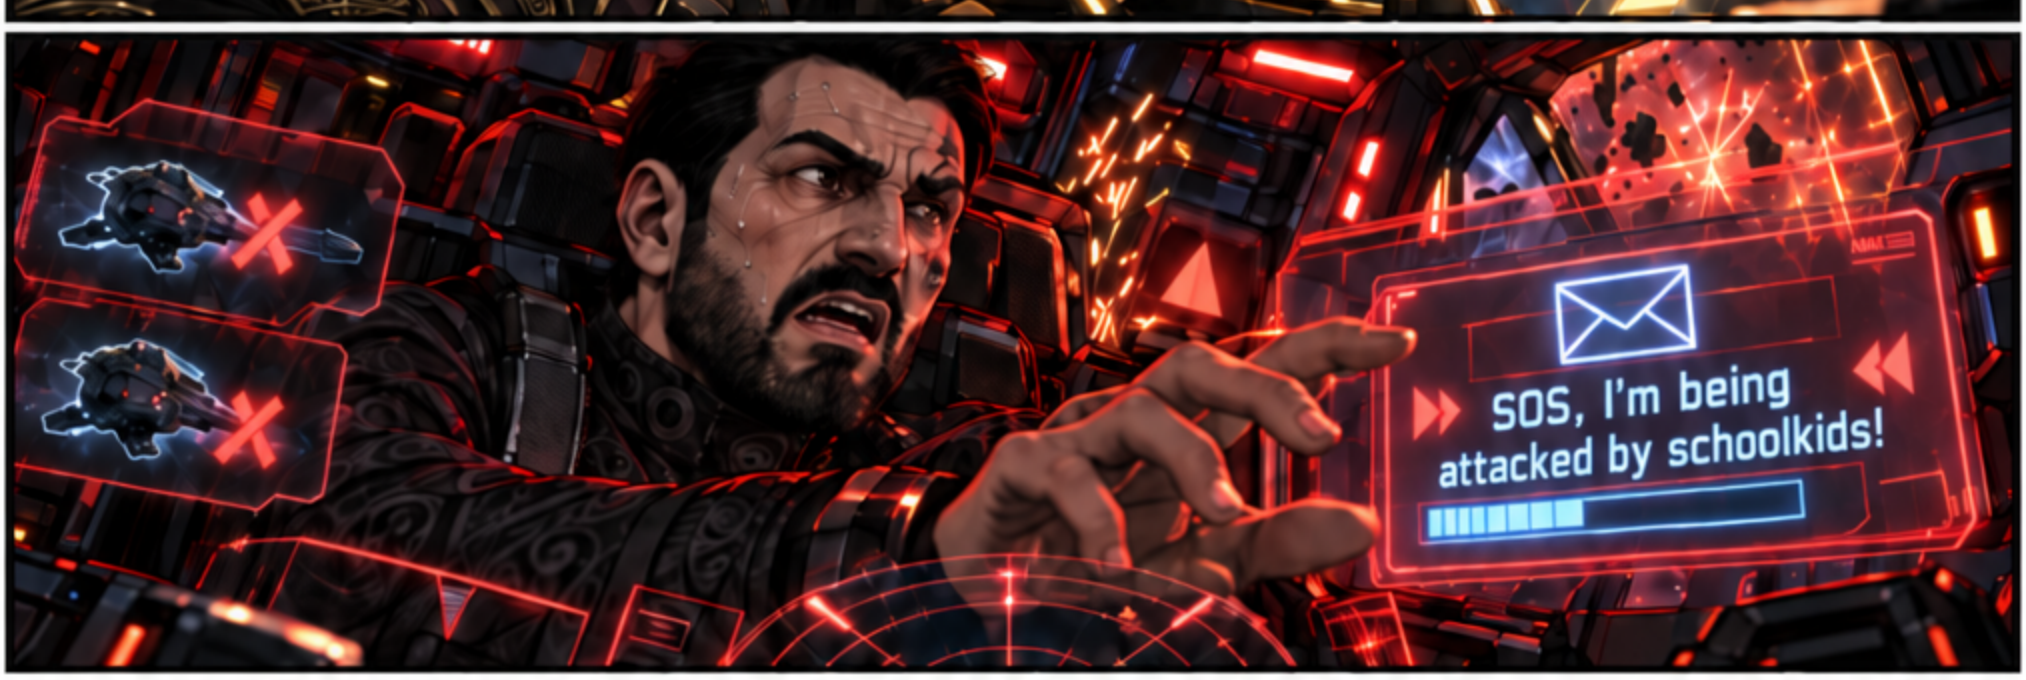
He'll be dry any second now.

His shields won't hold much longer. I'm planning a rewarp.

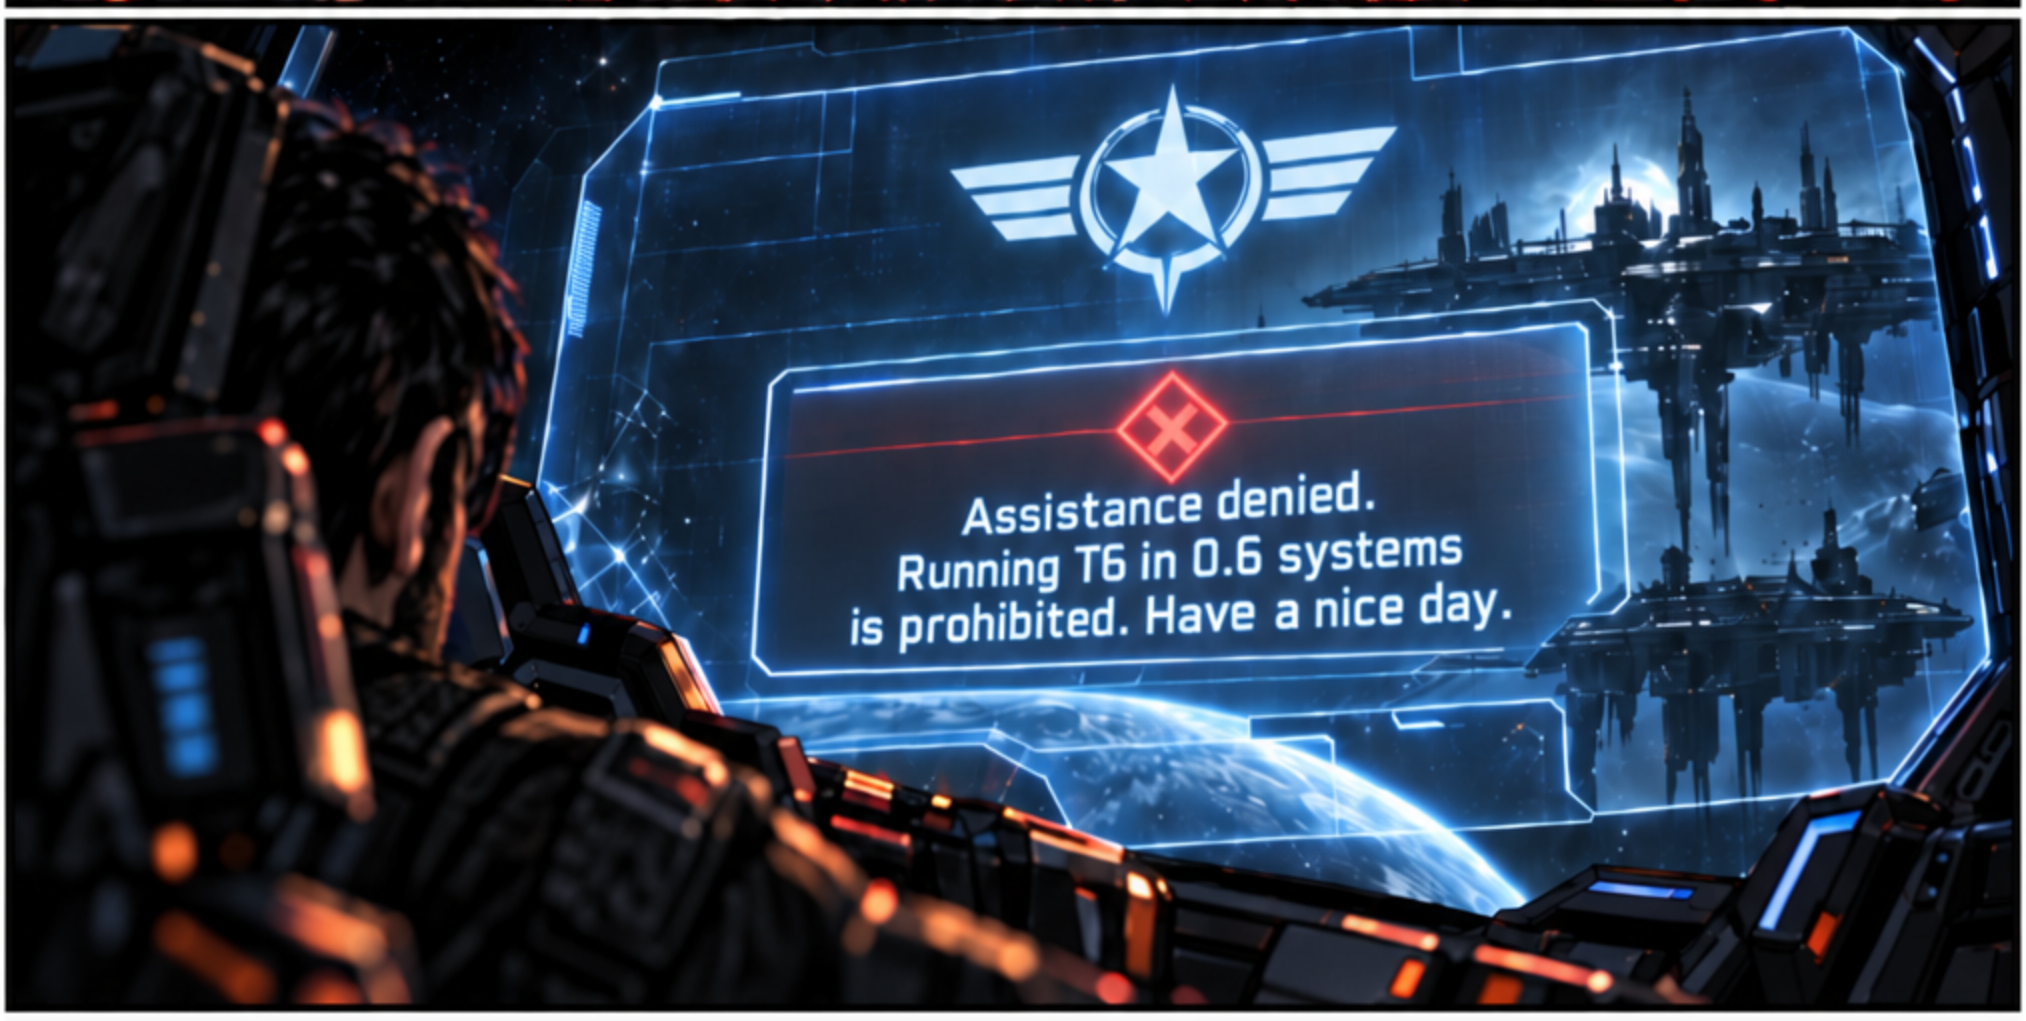
What do you mean, rewarp? I'll cut down his drones.

Crash Booster

That's it, he's dry!



SOS, I'm being attacked by schoolkids!



Assistance denied.
Running T6 in 0.6 systems
is prohibited. Have a nice day.

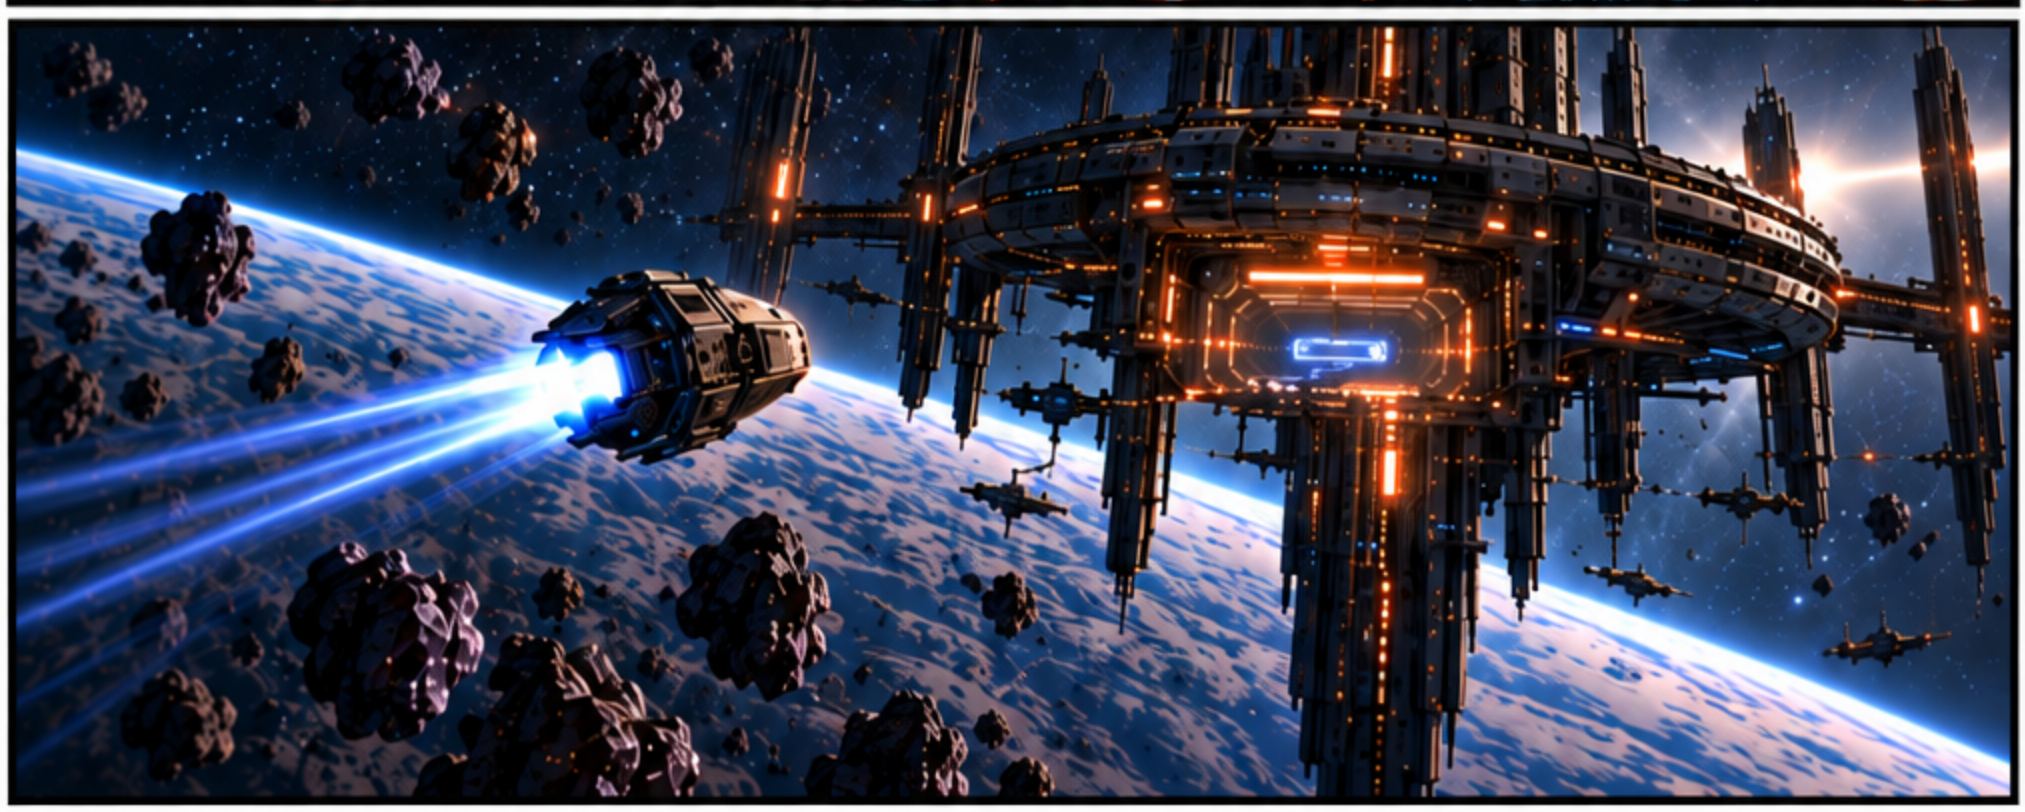
OBLOM ROVA:
YOU FUCKING KIDS! WHAT THE HELL ARE YOU DOING?!

DO YOU EVEN KNOW HOW MUCH THIS SHIP COSTS?!

WARP OUT!!!

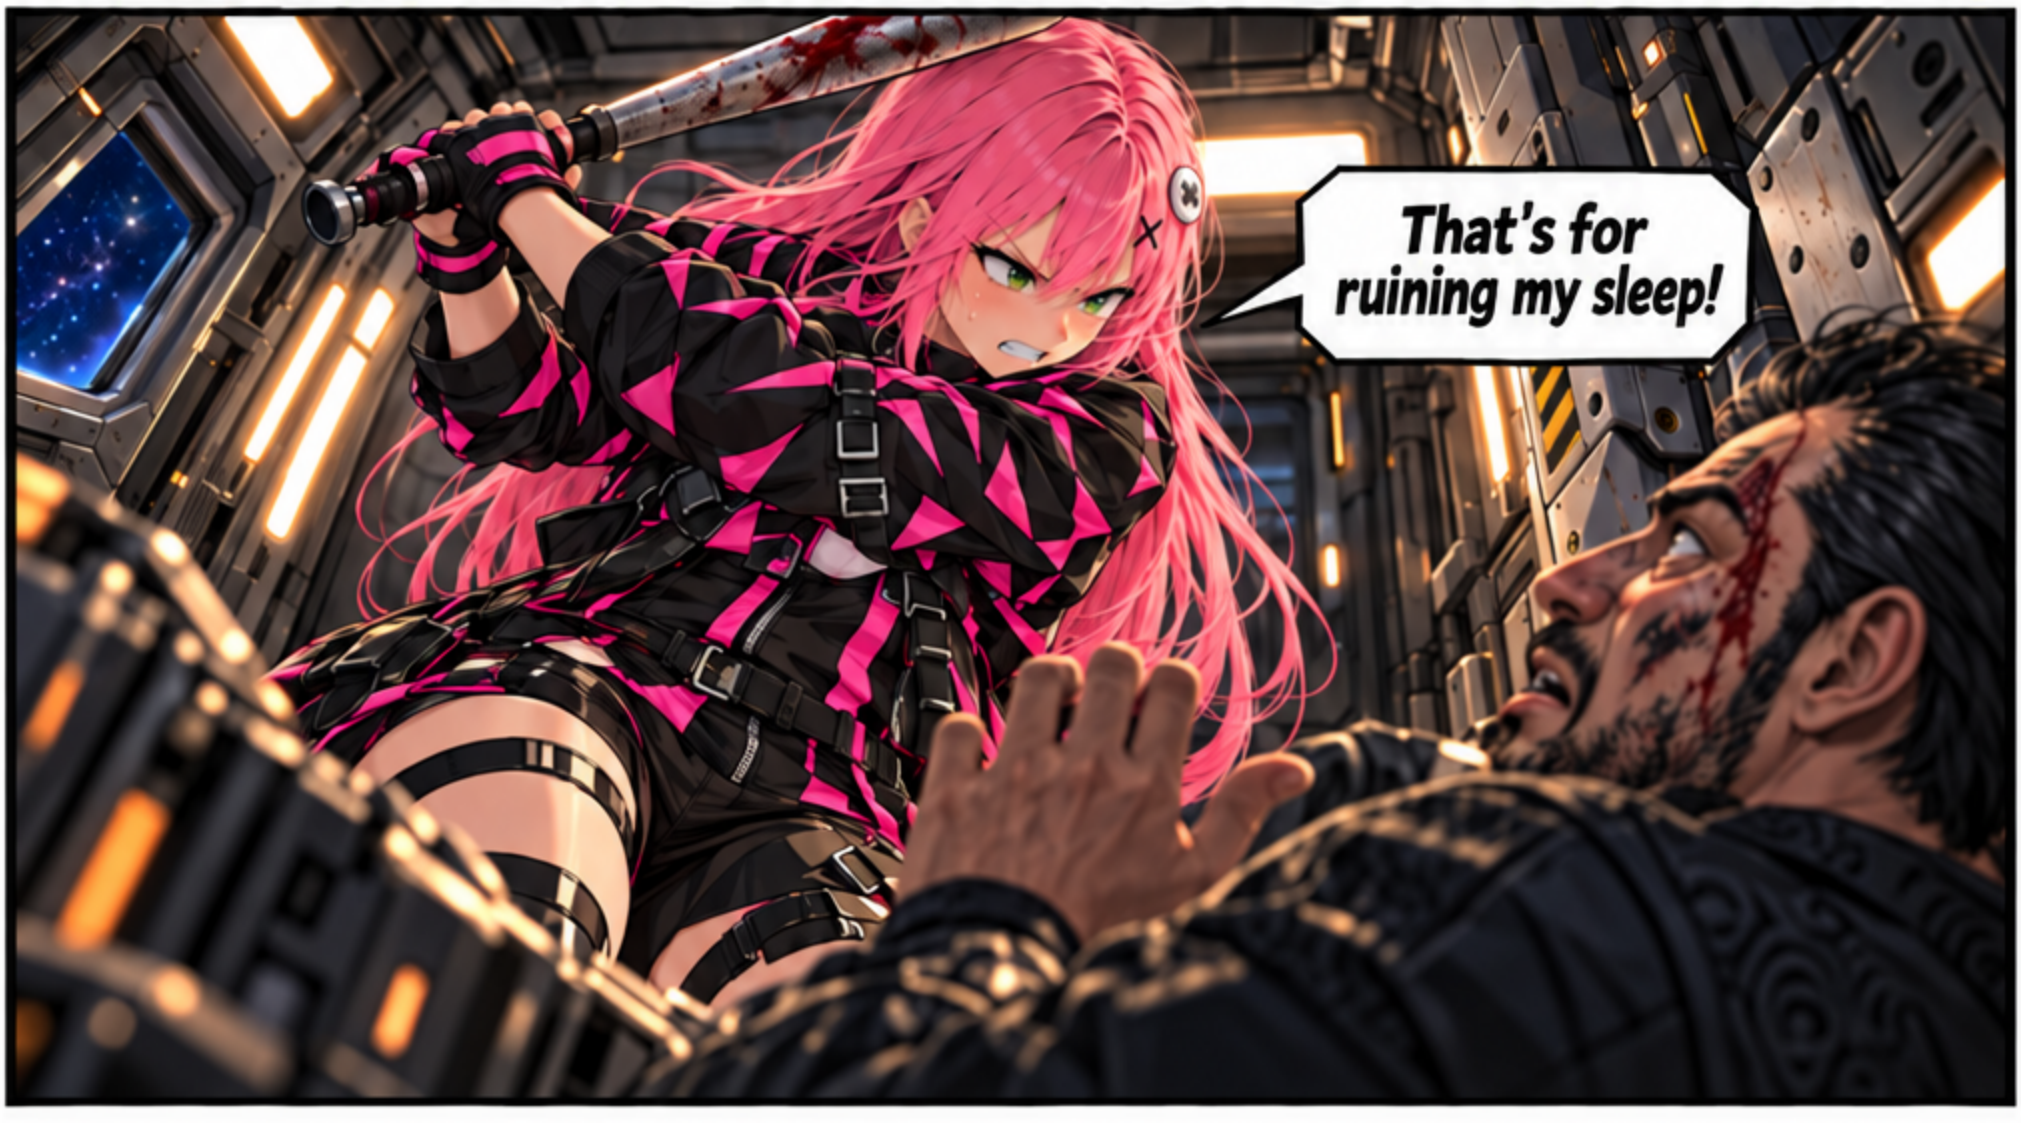
Qshar Green:
'I'm chasing his pod,
he's headed for the station!

On my way.
Lala Deviluke



Qshar Green (comms):
Holding!

Station, this pilot is a suspect. Deny docking clearance!



That's for ruining my sleep!

BAM!

I demand a CONCORD representative!

KRAK!

Who do you think I am? ♡

THUD

Should we do something?

No. It looks like the matter is already being handled.

We should get going.
It was a pleasure
doing business.
If you need us, you
know where to find us.

Thanks for the help.
See you around.

Several jumps later. Hek.

Is this all that survived?
Were you expecting anything to be left after us?

Well, gentlemen, now we can finally get some rest.

Three point one billion lost, and the loot is only worth one hundred twenty million...

We're not doing this for the money.

Still, it feels wrong to leave money behind.

So... shall we invest?

Just not in ships. We've had enough of those today.

Three point one billion in damage, one hundred twenty million in loot. A fine day for piracy!
